**CORE CAPABILITIES**

CNC Machining (Now)	Structural housings, motor mounts, gimbal hardware, weapon mounts, brackets, precision assemblies — 3/4/5-axis, tolerances to
Polymer AM (Q3 2026)	Airframe components, sensor housings, enclosures, rapid prototypes — ULTEM 9085, PEEK, CF-Nylon
Metals AM (2027)	Titanium, Inconel, and critical mineral powder feedstock for next-generation defense applications
Design & Engineering	In-house design support — concept to production-ready CAD. Prototype in days, not weeks.
Delivery Model	Single source: CNC + polymer AM, one PO, NorPack quality system, 100% domestic supply chain

**PRIOR WORK / PAST PERFORMANCE**

Anduril Industries	Precision CNC-machined structural & functional components for autonomous defense systems programs
Daniel Defense	Advanced manufacturing support — CNC programming, fixture design, tooling strategy, R&D prototyping
U.S. Navy	Defense manufacturing support for U.S. Navy programs via NorPack leadership team experience
U.S. Air Force	Aerospace & defense manufacturing in support of USAF programs — 40+ years combined USAF experience on team

**REGISTRATIONS & COMPLIANCE**

CAGE Code	Processing
SAM.gov	Registered
